Program: Jeremy Thomas's subject, Dental Implants

He is a former college quarterback and has recently played arena

football for Omaha. After college he was an Army medic. He has worked in various roles in health care for 25 years. He now is a regional manager for a health care organization.

Maintaining healthy jaw bones is critical for long life of teeth. If a missing tooth is not replaced, the jaw bone below the missing tooth will deteriorate and impact adjacent teeth.

Dental implants maintain health and restore smiles. There are 3 parts to implants which become stable and permanent after 6 months. As an alternative, dentures may often include some implants for stability. With dentures alone, however, bite force decreases 90%.

Employers determine the level of dental coverage, as well as, the national minimum standard of care. Medicare provides more dental coverage than other health insurance.

Dear Fellow Easter Bunnies;

The North Topeka Sunrise Optimist Club will be sponsoring our Annual Easter Egg Hunt on March 30th, at 3:17pm. We are expecting approximately 400 youth between the ages of 2-12 years old at this event. There is no charge and it is staffed by Sunrise Optimist volunteers.

Please help us to provide a quality Easter program for these youth by considering a donation for this event. All donations will be used for candy, prizes, and coupons for this event and will be greatly appreciated.

Please contact us within the next few days to answer any questions you might have and to hopefully set up a pick up time for your donation.

We would also like to invite you and your company's employees to bring your own children to this special event.

Thank you for helping us provide a positive and safe program for the Topeka area youth. It is with your support we are able to do so. If there are any questions or concerns please contact:
